3 OCT 1975

MEMORANDUM FOR: Deputy Director of Security (P&M)

SUBJECT : SRD Productivity Data, September 1975

1. Attached is a copy of the SRD Statistical Report - FY1976 covering the period through 30 September 1975.
2. The statistics reveal that a notable increase occurred in Computer Support activities. In August, over 74,000 units were produced while the past month saw an increase to more than 94,000 units.
3. The number of Security cases processed in September totaled 2959, an increase of more than 300 cases over the previous month.
4. During the month SRD searched names on a list originated at the White House to determine whether any of the individuals named on the list had had any association with the Agency. Brief summaries were prepared concerning the association with the Agency of twenty-four (24) individuals on whom the Office of Security has files.
5. Problems with the OSCCAR system were discussed in several meetings, during September, with Clearance Division personnel. The system, which consumed \$93,000 in OJCS resources in its development, was declared operational in June 1975. There are continuing OJCS production costs of about \$4,000 per month, and continuing costs in Security manpower required to accomplish about 700 transactions per day. The information which is produced by OSCCAR is not yet being used in the control of cases, and minimal use is made of the monthly reports. The basic problem is that some required transactions are not being fed to the computer on a timely basis. The Clearance Division has resolved to work with SRD in an effort to correct deficiencies so that the system can serve its intended purpose.

6. Five (5) employees of the Systems Support Branch rendered support, on an overtime basis, to OJCS to keypunch and verify time and attendance cards of Agency employees in order that FLSA earnings could be computed. The overtime, twenty-five (25) hours, was paid out of OJCS funds.

7. Monitoring of the SANCA terminal revealed it was "down" almost thirty-two (32) hours during September.

Chief,
Security Records Division
